PREVIEW

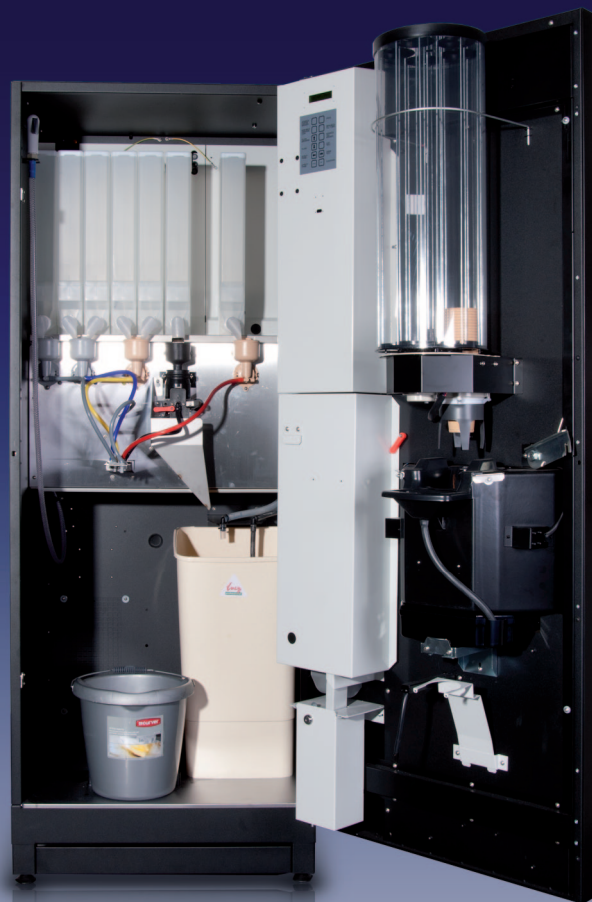

This literature is a Preview of the Torino which will be available at the end of 2011

TORINO

In keeping with Coffetek's reputation of consistently improving its product range, the Torino has been designed to combine extensive drink capabilities with a clean and stylish design.

The Digital selection system allows consumers to design their own freshly prepared Hot or Cold drink and then allocates an easy to remember number for future use. The flexibility of the Torino will accommodate up to 1200 cup capacity in either single or dual cup configurations.

Available in either Instant / Freshbrew Tea / Double Freshbrew or Near to Cup configurations the Torino provides an extensive choice of Traditional or Sophisticated Coffee Shop blends.
