

A matter of experience.

N&W has been developing and producing automatic beverage dispensers for the Out-of-Home and Catering sectors for many years and supplies over 100 countries. This market leadership has been achieved and maintained by investing heavily in research and development and is the result of many years of technical and manufacturing experience, combined with a passion for innovation and design.

Necta HoReCa products are developed and produced using processes approved to two internationally recognised standards, one for quality - UNI EN ISO 9001:2008 - and one for the environment - UNI EN ISO 14001:2004.

N&W is committed to providing the market with first-class high quality products and the quality certification of all its plants underlines this significant commitment. With regard to the environment, N&W has always paid great attention to the environmental impact of its products and processes and continuously strives to keep this to a minimum.

A further important certification achieved by N&W is supplied by IMQ, Istituto Italiano del Marchio di Qualità (Italian Quality Trademark Institute). This certification assures all N&W products meet the home appliance safety standards as well as the safety standards for commercial dispensers.

Korinto - all you could wish for

Compact, easy to use and extraordinarily versatile, the Korinto has it all. A result of more than forty years of experience at Necta, the Korinto is a super-automatic hot beverage dispenser with highest quality components and sturdy materials that allow it to support heavy workloads.

The refined design and particularly user friendly interface make the Korinto ideal for any environment, such as hotels, B&B, club houses, restaurants, etc. Special versions have been developed for bars and coffee shops, due to its ability to dispense two cups of coffee at the same time.

Part of a long tradition of top of the range food and beverages solutions for N&W, Korinto possesses advanced technology that ensures exceptional performance, excellent drink quality and ease of operation.

Accessories

In order to suit every client's requirements, a complementary range of accessories is available including:

- Super-equipped base cabinet with solid and liquid waste containers plus cups/sugar/stirrers holders
- Payment system module
- Cup holder module
- Cup warmer
- Water filter kit

100 cups

Superior technology to satisfy every need

If it's style and sophistication you're looking for, Korinto has the answer. Necta has developed, designed and implemented different technology to create a perfect high quality drink for every taste.

Espresso

Thanks to the patented coffee group, the volumetric doser and the extraction according to the parameters of the best Italian espresso, Korinto offers a unique coffee together with a range of exquisite mixed beverages.

Simple and stylish Korinto

With a simple and clear display, which guides users in the choice of their preferred beverage, and the large plain selection panel, the Korinto is very simple to use. Its compact dimensions make it easy to position and move, and has a wide selection menu offering up to eight different drinks.

Easy maintenance and cleaning

The Korinto's cleaning and maintenance system is simplicity itself.

The optimisation of the mixer's parts (only three components), the suction of dust through a small built-in drawer, and the dust conveyor make cleaning operations quick and simple.

GREENER BY NATURE

- We were first in the business to achieve ISO 14001
